Beschrijving voor Communicatie *Description for Communication*	**Max 150 woorden** *Max 150 words* We would like to introduce you to Lenteful, a deliciously creamy spread made from red lentils. It's lower in calories compared to usual sweet spreads due to being low-fat, a sustainable source of plant-based protein and dietary fibre that energises and satiates you throughout the morning. We made Lenteful for people who want a tasty, indulgent spread but are shied from their high-calorie content. We tap into sustainable practices such as the avoidance of palm oil and animal-sourced foods. Lenteful will be available in three indulgent flavours – Dark Cocoa, Speculaas and Cocoa-Speculaas. Lenteful is perfect for breakfast, lunch or for a quick on-the-go snack. What makes Lenteful stand out is that it's the first sweet spread in the European market based on lentils, an often underutilised but very sustainable legume. We want to be creative and show consumers the possibilities of such a nutritious and versatile ingredient!
