Bingo's is dedicated to sustainability and is passionate about creating plant-based food. Because of this, the company is able to develop a unique recipe for meringues that substitutes egg whites with a sustainable, and animal-free alternative.

Bingo's mission is to develop vegan meringues in which egg whites are replaced by aquafaba the liquid from chickpeas. Using the waste product of chickpeas for production, Bingo's is therefore more sustainable than traditional meringues and reduces carbon emissions by 40%.

Bingos vegan meringues are best described as a sweet treat or topping made from a by-product of chickpea production (aquafaba).  
Enjoy a sweet treat that is sweet for the environment too.
