FNLI Coach	Frank Boerboom (FrieslandCampina)

Frosty Misf!ts stands for a tasty and healthy frozen skyr dessert, which is sustainably produced. We are a brand with a mission fighting fruit waste. The first flavour we will produce is called Supernova's Apple Chai. This is a new, unique, flavourful and delicious frozen skyr which combines a fruity apple taste with oriental chai spices. The base of this dessert includes skyr, which is high in protein and low in fat, and whole misfit fruits including their peels and cores. The product contains no added sugars, only other natural ingredients and spices which give a magic touch to our flavours. Furthermore, the packaging, produced by SABIC, will be made out of recyclable plastic. The misfits we use and the flavours we produce make us Frosty Misf!ts.

We will bring you tastes from outta space!
