

ECOTROPHELIA
NEDERLAND

Team name	Plantlike
Product	Plantlike.'s Pulled mushroom
School	Aeres Hogeschool Almere- European Food Business
Captain	Mara Thiele (DE)
Teamleden	Thijs Berkenbos (NL) Isaac Van Vlijmen (NL) Tomas Langhout (NL)
Mentor	Corry Uenk
FNLI Coach	Frank Boerboom, FrieslandCampina

Organic mushrooms are grown, marinated and processed into meat or vegetable alternatives. The unusual mushroom variety "Lion's Mane Mushroom" grows particularly well and quickly on brewer's spent grains. Most breweries give spent grains to farms as cattle feed, which represents rather resource-inefficient processing. Plantlike's unique cultivation practice saves valuable resources and uses the by-product spent grain to create fresh, nutritious food for meat and vegetable lovers.
